

BONNY SLOPE COMMUNITY ORGANIZATION

WELCOMES STEVEN FULMER

Ask Not What You Can Do For Bonny Slope,

Ask What Bonny Slope Can Do For YOU!

(Yes! We said that correctly!)

JFK famously said: “*Ask not what your country can do for you, ask what you can do for your country!*” It was a direct and unapologetic call for action. As a volunteer organization we certainly understand such a call, however, we on the BSCO team would like to turn that request around and ask instead: “*What can BSCO do for you?*”

Because of the commitment and dedication of our parents and community, Bonny Slope has been one of the most renowned elementary schools in the state. For over a year we kept asking and asking and asking... *asking for money, asking for time, asking for volunteers...* and you kept giving and giving and giving. And while we could always use more of each, [we invite you to join us for November's BSCO meeting and a chance for us to return the favor!](#)

Volunteers, Parents, Grandparents and the community are the life blood of this organization. We thrive because of you, and we thank you. So in return we are launching a periodic professional speaker series and kicking it off in November. Join us as we host Steven Fulmer, an acclaimed speaker, published author, international executive coach and Bonny Slope dad to share with us a powerful message of human connection and courage in personal and professional leadership. Invite your friends, teams and colleagues and [join us for an inspirational presentation that can have a direct impact on your life.](#)
